Baltimore Hospital,

24th August, 1818.

THE board of visitors have much pleasure in announcing to the public, that within the last eighteen months, a large and elegant addition has been made to this valuable institution, in the erection of the East wing of the building. This wing is 152 feet in length and 36 in width, with an extensive Southern projection at its extreme East end. It contains between 30 and 40 apartments, admirably calculated for the accommodation of every class of patients. Of this number are several large and airy wards, intended particularly for the reception of seamen, and well adapted to their various diseases. These different rooms and wards will be warmed by open fires, and by heated air thrown into them, from furnaces constructed on a safe and improved plan. Arrangements will also soon be made, for lighting the apartments in the entire building, with gas.

The unwearied exertions of Doctors Mackenzie and Smyth, the attending Physicians of the Hospital, in their attention to the construction of the building, and their care of the sick, have given a character to this Institution, which is now inferior to none in the United States. In the short space of six years, a most noble establishment has been erected—a thing without parallel in this country. It is well known, that above half a century has been consumed, in bringing the Hospitals of New-York and Philadelphia to their present size, and it is admitted by many gentlemen, who have visited these Institutions, that the Hospital here, is by far the most extensive, the whole building being now 360 feet in length.

The daily increase of the sick in the Hospital, renders it absolutely necessary that the new wing should be furnished; and every exertion is now making, to have it completed, before the cold weather shall set in.

The visitors at their late meeting, examined the Institution with much care—the apartments of the sick in the private infirmary—those in the lunatick asylum—and the wards of the sick and disabled seamen in the Marine Hospital—and they assert with confidence, that the sick and afflicted of every description are well accommodated and carefully attended. They have seen at their different meetings, the private patient comfortable: the wretched marine humanely taken care of; and the sailor, disabled by age, wounds and sickness, well provided with suitable medical assistance, and with every other comfort which his condition may require. Indeed the agreeable situation in which this very useful class of men are placed, does much credit, as well to the Director of the Marine Hospital, as to the attending Physicians, to whose immediate care they are entrusted. Every praise too, which the visitors can bestow, is due to Mr. & Mrs. Gatchel, the Stewart and Matron of the Hospital, for the neat and clean manner in which the House is uniformly kept, and for their care and attention to the administration of the internal economy of the establishment.

Before they conclude this account of the Hospital, the visitors would invite the attention of their fellow citizens throughout the United States, to the *Anatomical Cabinet of Wax Preparations, by Chiappi*, which certainly far surpasses any thing of the kind ever exhibited in this country; and will afford to those whose curiosity may lead them to see how "fearfully and wonderfully they are made," but more especially to the medical student, a fund of useful information.

The Hospital is under the care of the following medical gentlemen:

Doctors *Colin Mackenzie* } Attending
James Smyth } Physicians.
Dr. *Horatio Gates Jameson*, Atten'g Surg.
Doctors *George Brown*, *John Coulter*, *John Campbell White*, *Solomon Birkhead*, *John Cromwell*, *Peter Chatard*, *Ashton Alexander*, *John Owen*, *William Donaldson* } Consulting Physicians.

By order of the Board of Visitors,

French Creek Boarding School.

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL for GIRLS.—With this view I have purchased the FRENCH CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pikeland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniencies for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages; nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.—The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN'S ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of person can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hahn's true & genuine German Corn Blaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

SONG.

[A woman having rescued, by stratagem, her husband, who was a prisoner of war, from the place of his concealment, sings the following song, as they are pursuing their journey homeward by night.]

Come Raymond, Raymond, speed along,
Dark fears upon my fancy throng,
For we are foreign wilds among,
With not a friend to guide us.
Rough, rough and dreary is the road,
That leads to our once blest abode,
And hark! from yonder bursting cloud,
The tempest seems to chide us.

O Raymond, I have wander'd far,
Led by the light of love's pure star,
Thro' scenes where slaughter drives his car,
To succour and to save thee.
And there, full many a scheme I've plann'd,
To bear thee from the foeman's hand,
Who, raising high the vengeful brand,
Soon, soon of life would reave thee.

Success my darling toil has crown'd,
No prison walls thy form surround,
With quicker step then let us bound,
And fresh our spirits rally:
For see the storm has roll'd away,
The smiling dawn leads on the day,
And yonder, clad in rich array,
Appears our native valley.

All hail, ye honor'd objects, hail,
Ye flow'ry lawns; thou fertile dale,
And streamlet, where the fitful gale,
In sportive mood is swelling.
And hail, once more, ye forms so bright,
Quick rising to my rapture'd sight,
That crown with ever new delight,
The cotter's happy dwelling.

WEALTH VS. LITERATURE.

Mental Indolence, says the Edinburgh Review, is the faithful companion of wealth; and in our own country, as well as in every other, the most meretorious exertions in literature have been made by those who were unable to devote to their favorite pursuits more than a few irregular hours stolen from the performance of duties on which their subsistance depended.

UNIVERSITIES.

The reputation of Universities is almost always short-lived, or else it survives their merit. If they are endowed, professors become fat-witted, and never imagine that the arts and sciences are any thing else but incomes. If universities slenderly endowed are rendered famous by the accidental concurrence of a few great teachers, the number of scholars attracted there by the reputation of the place, makes the situation of a professor worth intriguing for. The learned pate is not fond of ducking to the golden fool. He who has the best talents for getting the office has most commonly the least for filling it; and men are made moral and mathematical teachers by the same trick and filthiness that they are made side waiters, and clerks of the kitchen.

[*Edinburgh Review.*

A person of respectable character has published in a Brest paper, a singular fact, which appears worthy the attention of practitioners. It is well known that the large house leek has been successfully used against corns. This gentleman asserts, that being one day attacked with a violent pain in one of his toes, which seemed to threaten a fit of the gout, he applied the horse leek; the relief he experienced encouraged him to continue the experiment; he mentioned it to several of his friends who were subject to the gout; the success has always answered his expectation. It appears incontestible, to him, that the house leek calms and eases, he does not say cures, this cruel disorder, with which so many old men are afflicted, and he invites the attention of the faculty to examine whether chance has not procured him the honor and happiness of making a discovery which will prove useful to the world.

The house leek is pounded after having the thin out side taken off.

AN EFFECTUAL CURE FOR A FELON.

Bathe the part affected in ashes and water; take the yelk of an egg, six drops of spirits of turpentine, a few beet leaves cut fine, a small quantity of hard soap, one tea spoonful of snuff or fine tobacco; then add one table spoonful of burnt salt, and one of Indian meal, and it never fails to effect a cure if applied in season.

Anger spares neither friend nor foe, but tears all to pieces, and casts human nature into a perpetual state of war.

ALEXANDRIA:
MONDAY, SEPTEMBER 7, 1818.

From the Democratic Press.

We have not room to-day for any remark on the following circular. It seems that the United States' Bank not only refuses to take the Notes of its own Offices, but that the Offices refuse to take the Notes of the Bank which established them. If an individual were *thus* to act he would be considered as a Bankrupt, and his notes being dishonored by his own agents would be protested *as a matter of course.*

NIAGARA FALLS.

Judge Porter has made a contract, says the Buffalo Patriot, to erect a permanent, bridge from the American shore to Goat Island, to enable travellers to view the Falls, without crossing over to the Canada shore, and that Col. P. Whitney is constructing a flight of stairs, perfectly safe and commodious, so that in future ladies can descend two hundred feet from the precipice, and reach the foot of the falls with ease and safety, where a boat is kept to cross the Niagara. [*N. Y. Daily Adv.*

FALLS OF NIAGARA.

The projection called TABLE ROCK, has recently fallen in. It is said that the rock broke in pieces at the fall, and disclosed a "great number of chrystaline substances, which are worthy the attention of the geologist."

NIAGARA FALLS.

We learn that a considerable part of Table Rock, well known to all the visitors of this grand natural phenomenon, by the fine view it afforded of the falls on the Canadian side, broke off by its own weight, during last Thursday night, and precipitated itself into the gulf below. The piece broken off, we understand, is about 25 rods long and from one to six rods wide, comprising the principal part of the table or excavated rock. It may be considered providential, that the fall of this piece which during the summer months has been a great part of the time covered with visiters, should have happened in the night, without any superincumbent weight or known cause to occasion it.

[*Niagara Journal.*

The crops of corn and cotton in this state, with few exceptions, are very unpromising. They received considerable injury by the backwardness of the spring, but still more from the late severe and distressing drought. On some plantations, we are credibly informed, there has not been a good rain since the last of May—others have, comparatively, suffered little damage. It is apprehended, that in most parts, corn enough will not be made for home consumption—and, notwithstanding the increased quantity of cotton planted, it is thought there will be less raised than usual for exportation. To add to our distresses, immense swarms of Caterpillars from half an inch to an inch and a half long, have made their appearance.—The earth, in some places is alive with them. A respectable farmer assures us, there are not less than two hundred bushels in his cultivated fields, which are not very extensive. They have, as yet, fed principally on the grass, leaving the ground entirely bare. In a few instances they have attacked the blades of the corn, where other vegetation we presume was scarce, and have stripped the stock to the ear.—The cotton has, thus far, escaped their ravages; but it has been assailed by the Rot, an enemy equally to be dreaded. In this unpropitious state of things, it is some consolation to learn, that fine crops have been made west and north of us.

To guard against scarcity, we would respectfully recommend, to such planters as have it in their power, the seeding of large quantities of Turnips and small grain.—The former is fine food for stock, and in this way may be of great service. An idea may be formed of the prospect before us, from the following prices: corn is 10 dolls. and flour 15 dolls. a barrel.

INDIAN LANDS.

Wilson Lumpkin, esq. has been appointed by the President of the United States, to run, in conjunction with suitable persons to be selected by the executive of Georgia, the boundary lines of the land lately obtained by the agent from the Creek Indians, viz. a narrow strip of territory on the Ocmulgee, containing about 974,000 acres—and a slip lying immediately beyond the Alcova, to the west of Jasper and Morgan, and supposed to contain 109,000 acres, the greater part of which is fertile. The Governor, we understand, has repeatedly urged the marking of the other treaty lines, (Merriweather's and Jackson's)—but from the variety of more important business which has recently claimed the attention of the President, this subject has been overlooked. There is reason to believe however, that it will be attended to soon.

The territory ceded by the Creek nation at the treaty of fort Jackson, contains above seven millions of acres. It is thus described in a manuscript Topographical work, prepared by the late col. Hawkins—"That extensive body of land between Flint River and Okefaunoke, Alatamaha, and the Eastern boundary of the Creek claims, is pine land, with cypress ponds and Bay galls. The small streams are margined with dwarf evergreens, the uplands have yellow pine, with dwarf saw palmeto and wire grass: the bluffs on St. Illas are some part of them sandy pine barren; the remainder a compact stiff yellowish sand or clay with large swamps, the growth of Loblolly Bay, gum, and small evergreens—the whole of those swamps are bogs. In the rainy season, which commences after mid-summer, the ponds fill, and then the country is a great part of it covered with water; and in the dry season, it is difficult to obtain water in any direction for many miles." In the fork of Flint and Chatahoochie, there is said to be some good land.

The cession from the Cherokees is estimated at a million and a half of acres, mostly poor and broken. The whole quantity ceded, falls little short of ten millions of acres. The expense of surveying this immense body of land, in tracts of half a mile square, will cost, from a rough estimate, about three hundred thousand dollars! [*Ibid.*

SOUTH AMERICAN BUCANIERS.

An order similar to the one lately issued by the British government, directing the capture, detention and punishment of the crews of those armed vessels which have been for years committing the most abominable depredations, not only upon the commerce of Spain, but upon that of every nation whose merchantmen chanced to come in their way, has long been called for; and should the other maritime powers, whose policy and duty certainly require it, adopt the same course, we may soon anticipate the happiest results. The only subject of regret to us, in this matter, is, that the American government has not been first in adopting some strong and efficient measure of the kind. This it was our duty to have done for various reasons. The commerce of no nation, unless it be Spain herself, has suffered more from pirates, pretending to sail under South American flags and commissions, than our own;—and that, too, from the hands of Americans—the worthless and abandoned of our own country—whose ships have been fitted out, manned, equipped, and provisioned in our own ports! We therefore owed it to ourselves, in defence of our national character and reputation, as well as of our property. Besides, our proximity to the theatres upon which these disgraceful and barbarous scenes have been acted, has rendered us better informed as to the true situation of affairs, and presented to us a more clear and distinct view of the conduct of these freebooters.

The government has time and again been called upon, to adopt measures to render our commerce secure, and to prevent the violation of our neutrality. Representations of the robberies, piracies, and murders, which have been committed upon our merchantmen, have repeatedly been made, and many times in the columns of this paper.—But all that has been said, or done, has produced little or no effect. Instead of giving some employ to our navy, we have had resort to the old business of *law-making*; and every body knows with what ease and frequency these laws are evaded, or directly violated.

The friends of revolution with all its concomitant evils and horrors, may perhaps, in consequence of these remarks, accuse me of entertaining anti-patriotic principles, and of cherishing sentiments of hostility towards the patriots of the southern continent. This, however, is not true. Those patriots of South America, *who are truly such*, enjoy our respect and have our warmest wishes for success. But there is a wide difference between these, and those foreign renegados, the dregs of all nations, whose desire for plunder induces them to join the republican ranks, or to fit out private vessels, under the little less reproachful name of *privateers*. For these, we entertain not one friendly emotion or sentiment—they are not even entitled to the civilities of common attention or respect. And our only wish is, that all such as are tainted with the foul crimes of which we have reason to believe the most of them guilty, should be brought to speedy and condign punishment.

We do not feel disposed to dignify these upstart commanders of little armed picaroon vessels with the title of "distinguished officers;"—nor have we, like some of our neighbors, any sympathies in store for those who have been engaged in this work of plunder, and whose constant practice has been, to board unarmed merchantmen, and hang gentlemen, passengers, or others, up by the neck, repeating the operation until they are strangled into any confessions relative to the character of property, which may be required by the insolent captor! *This conduct, and these tortures, have been frequently practised; and by Americans, who have enlisted in a glorious crusade against the inquisition!* And the same men are dubbed "distinguished officers," and when they chance to get into difficulty, attempts are readily made to vindicate their characters, and to enlist the feelings and sympathies of the people in their favor!

It has for a number of years been a desideratum with the European powers effectually to put down the system of almost indiscriminate piracy carried on by the Barbarians inhabiting the Barbary coast, and various methods have been proposed to effect a revolution so desirable, and which would be fraught with such incalculable benefits to the world. But for the last three years, we believe every enlightened and unprejudiced reader will agree with us, that the efforts of the European nations, and of our own, ought not to have been exclusively directed against the Barbary states. The depredations upon commerce committed by the pirates under what are termed patriot flags, have exceeded those of the Barbary powers combined. And sound policy, the laws of nations, and of humanity, equally demanded the abolition of this system of piracy, as they did that of the Algerines.

With respect to privateering in general, we have ever been opposed to it, in whatever shape, or under whatever circumstances carried on. True, it is sanctioned by precedent. But can it be called honorable warfare? We are inclined to answer in the negative; and we are of the opinion, that the civilized nations of the world collectively, could perform no more humane and honorable act, in the present state of universal peace, than to provide for its total abolishment in the event of war. This subject certainly merits the consideration of the "Holy Alliance."

Notice.

PURSUANT to a decree of the Honorable Court of Charles County as a Court of Equity, I shall expose to public sale at Port-Tobacco, Charles county, Maryland, on Wednesday the 7th day of October next, all the real estate of which General John Mitchell died seized, lying in Durham parish in said county, consisting of two tracts of land adjoining each other, called Hollyspring Resurveyed and Meek's Park, containing about 730 acres. This estate is situated contignous to that of Colonel John Tayloe's, near Maryland Point, and within two miles of the river Potomac, is considered one of the most healthy in that neighborhood, lies level, and the soil (a part of which is already strong), is thought to be susceptible of speedy improvement by the use of clover and plaister of paris. On this estate is a very considerable body of wood and timber, which if converted into money would probably pay the purchase money.

The improvements are a two story dwelling with two rooms and a passage on each floor, and a cellar under the whole, kitchen, Negro quarters, barn, and corn house, and an orchard of some of the choicest fruits.—A more particular description of it is deemed unnecessary, as it is presumable that those inclined to purchase will view the premises previous to the day of sale. It will be sold either entire or in parcels for the accommodation of purchasers.—The purchaser or purchasers will be required to enter into bond, with approved security for the payment of the purchase money in one, two and three years, with interest, payable annually from the day of sale; and on the ratification of the sale by the Court, and the payment of the purchase money, and not before, a deed or deeds in due form will be made, conveying all the estate, right, title, interest and claim, to the premises that the said John Mitchell, deceased, held in the same, which title is indisputable.

TRANSLATION.

Having had the pleasure of a daily intercourse with Mr. Lanphier for several months past, we the undersigned certify, that from the profound knowledge he possesses of the French language, no person is more capable than he of teaching its rudiments and different idioms, (which constitute a part of it) and indeed the most correct pronunciation. We also have had an opportunity of conversing with several of the scholars of the same gentleman, who, without ever having been in France, speak good French.

Gunston for Sale.

THIS elegant estate is situated on the Potomac, 16 miles below Alexandria—it is bounded on three sides by the Potomac and Pohick creek, and contains nearly 3,000 acres of land, level and fertile, to which are attached six shad and herring fisheries, two of which command the river channel. This land will be laid off in four tracts, so as to have one or more fisheries to each; these tracts will be again divided if requisite. This estate is level and beautifully situated, very fertile, and remarkably healthy. Plaister acts with an effect equal to that of any part of Virginia or Pennsylvania.—I have used 500 bushels in twelve months, and such is its beneficial operation, that were I to keep this land I should considerably increase the quantity. A manufacturing mill is distant about two miles, on a stream navigable for vessels carrying 1200 bushels of wheat, where the Baltimore and Dist. of Columbia prices are given for grain: being bounded on 3 sides by water, a small extent only of fence is necessary to inclose the whole: it would be admirably adapted to grazing. The improvements are a large and very substantial brick mansion, 40 by 70 feet, with every necessary outhouse, three commodious barns, houses for Negroes, and fish houses at each of the fisheries. 120,000 bricks and 1000 bushels of lime are just burnt on the premises. There is a considerable extent of line fence, both useful and ornamental, two orchards of well selected apples and peach, besides an abundance of other choice fruit. More than 150 acres are in clover, 200 in corn, and land is in preparation for sowing 250 bushels of small grain. Any quantity of hay can be cut from the low grounds, some of which (and all might,) have been reclaimed at a trifling expense. The river and creeks, abound with wild fowl, particularly canvass backs, the woods with deer and a variety of other game. Mules, cattle, highly improved sheep, farming utensils and household furniture can be had. The terms of sale will be accommodating. Property in any of the cities, negroes, bank stock, western lands, or lands near the Ridge, will be taken in payment.—Letters must be addressed to me at Pohick Church, Fairfax county, Virginia.

September 4 GEORGE MASON.

The Federal Republican, Richmond Enquirer, National Intelligencer, Winchester Gazette, Philadelphia Aurora, Lancaster Journal, and New-York Evening Post, will insert the above once a week for two months, and send their accounts to this office for payment.

Lands for Sale.

I WILL sell on accommodating terms the following very valuable property:

A tract of land containing 340 acres, lying on the Potomac River, at the mouth of Pomonkey Creek, about sixteen miles below the town of Alexandria: the larger portion of it is level land, with a stiff soil, well adapted to the cultivation of corn, wheat and tobacco, and equal in fertility to any in the neighborhood. On this farm is one of the most elegant scites for building, of all those fine heights which border the Potomac, commanding an extensive view of the adjacent country, both in Virginia and Maryland, for more than thirty miles up and down the river—located in a genteel neighborhood, it would make an agreeable residence, and from the advantage of the best navigation and its proximity to market, an extremely profitable farm.—

There are houses upon it for the comfortable accommodation of the negroes necessary for its cultivation. Plaster acts well on all the adjacent country.

A tract containing 334 acres lying about one mile back of the former, a large portion of it in wood—it is high, stiff land, in soil similar to the one abovementioned: upon this tract is a tenement in tolerable repair.

A tract containing 100 acres, lying at the mouth of Mattawoman Creek, about 25 miles below Alexandria. The whole of this is first rate river bottom, and now completely enclosed. On this tract is that well known fishery called Rum Point, at which there has been cleared upwards of 2000 dollars in one season, and where, independent of the fish sold on the shore, there might be put up from one to two thousand barrels every season. Besides the profits of the fishery, is the advantage of Manuring the farm with the offal of the shore, from which, with industry, the whole may be annually manured, so as to produce at least ten barrels of corn to the acre. On the fishery shore is a dwelling house, and houses for holding salt and curing any number of fish, and for the accommodation of the hands.

A tract containing 236 acres, lying about one and a half miles from the last mentioned tract, more than 200 acres of which are in wood, which would afford 20 cords, at least, per acre, within one mile of the river, where wood has of late rarely sold for less than five dollars per cord.—It will be divided into 50 or 25 acre lots to suit purchasers.—If preferred the wood will be sold standing for so much per acre.

William Mason residing near the head of Mattawoman creek, about 7 miles from Porttobacco, will show the lands to those who may wish to see them.

Valuable Estate for Sale.

UNDER the authority of a decree from the Equity Court of Prince George's county, the subscriber will on *Wednesday the 23d day of September next*, offer at public sale, at the house of Isidore Hardy, in Piscataway, a most valuable property, the

Estate of George R. Leiper,

Esq. deceased, so well known by the name of MONTPELIER—about 2 miles from Piscataway, 9 miles from Alexandria, and 16 from Washington city.

This farm, which contains rather more than 600 acres, is truly valuable. The soil is fertile and highly susceptible of improvement by the use of clover and plaster. The buildings are good and commodious, and the scite of the Mansion, in beauty of perspective and salubrity of air, is excelled by few on Potomac river. To be enabled to appreciate fully the elegance of the situation and all the advantages which result to the possessor of this valuable estate, it is only necessary that it should be viewed, which may be done, and every necessary information obtained, by application to the subscriber, or Mr. *Aquilla Baden*, the present manager of the farm.

The terms of sale are that the purchaser shall pay one-third in ready money, and the residue in two equal annual payments, with interest from the day of sale, to be secured by bond with approved security, and on the ratification of the sale by the court, and the payment of the whole purchase money with the interest thereon due, and not before, the trustee will execute to the purchaser a deed in the terms of the decree. The purchaser on complying with the terms of sale, will have the liberty of seeding a crop of winter grain.

Lexington for Sale.

THIS estate, containing two thousand three hundred and fifty acres, more or less, being one half of the well known tract of land commonly called "Mason's Neck," situated on the Potomac, in the county of Fairfax, Virginia, is now offered for sale. About two-thirds of it is covered with an uncommon heavy growth of white and black oak, hickory, pine, poplar, &c. near the water's edge, whence it may be transported to the markets of the district of Columbia, (a distance of 20 miles only) where timber and fuel are always in demand, and without the expense and risk encountered in conveying those articles from situations further down the river; the remainder is in cultivation, and furnished with every necessary building for that purpose; together with orchards and a blacksmith's shop. The

other improvements are a spacious and elegant dwelling-house, kitchen, dairy, smoke-house, office, ice-house, a well of excellent water, and a falling garden, of the most tasteful and costly design, filled with the rarest and most beautiful shrubberies and flowers, exotic and indigenous, all situated on an eminence, commanding a view of the rest of the tract, which extends in an unintercepted plain from the foot of the eminence to the Potomac and Occoquan, by which it if so far bounded as to render the expense of enclosing it comparatively nothing. The prospect, moreover, of the surrounding country, diversified in every direction by sheets of water, is really beautiful beyond description. There are likewise attached to this estate four valuable

Shad & Herring Fisheries:

however, the subscriber intends to reserve one of them and a few acres of land. The woods abound with deer in such numbers, that with a little care a gentleman might command a constant supply of venison for his table; and besides the large streams above mentioned, the various creeks and inlets that every where intersect the land are covered in the proper season with wild fowl of every description known in our waters. When to all these advantages is added the great natural fertility of the land, which is not exceeded perhaps in the western country, its adaption to improvement by the use of plaster, which has been proved by experiment, its vicinity to society, to market, to two manufacturing grist-mills, to which the distance of conveyance by land and water is not more than 5 or 6 miles, it may with truth be pronounced the most valuable estate, of the same extent, in the whole range of country watered by the Potomac. It will be sold entire or divided to suit purchasers.

The terms of sale will be one-third of the purchase money in hand, the remaining 2-3ds in two equal annual payments, with interest from the day of sale, secured by a deed of trust on the land—which will be shewn in my absence to any person disposed to purchase, by *Mr. William Allison* or *Mr. Weston*, residing on the premises.
August 31 WILLIAM MASON.

For Sale,

UNDER an act of the Legislature of Virginia, passed on the 21st day of February, 1818, all that part of a tract of land lying in the county of Fairfax, and commonly called Retirement, to which the widow and heirs of the late Walter D. Brooke are entitled, as well their interest in that part which has been allotted to Ann Brooke for her dower, as that part of which the said widow and heirs are now in possession. The sale will be made at public auction on the premises near where the stage road crosses Bogues Run, on Thursday the 17th of September next, if fair, if not the next fair day. The terms are one half cash, the balance on a credit of twelve months.

Piano-Fortes and Organs.

THE subscriber, who carries on the manufacture of these instruments in N. York, is now in Alexandria, where he will remain a short time, during which he will attend to repair, regulate the action and improve their tones and musical effects.—A specimen of his work and abilities may be examined in the store second door below the Mechanics' Bank, King street, where he offers for sale two of his Piano-Fortes at the New-York prices—one of them an elegant upright grand, of a full bodied mellow tone and brilliant touch—the other is of the horizontal sextagon form, highly finished, with extra additional keys. He warrants them perfectly sound, and of the first quality.—He will allow in exchange a fair price for old pianos or organs, being such as he approves.—He also has for sale a few fine toned old violins and elegant bows, and concert flutes.—He is perfectly acquainted with the harpsichord construction, and offers to put them in complete order.

For Sale,

A valuable Farm in Jefferson county, Virginia.

BY virtue of a decree of the superior court of chancery for the Richmond district in Virginia, in a suit wherein the executors of General George Washington were plaintiffs, and Gerard Alexander, Thomas L. Alexander, (by Ludwell Lee, his appointed guardian in this case) Ludwell Lee, Richard H. L. Washington, John A. Washington, Bushrod C. Washington and Mary Lee Washington, defendants—will be exposed to sale to the highest bidder, for ready money, on the premises, on TUESDAY, the 15th day of September next, all that tract or parcel of Land, lying in Jefferson county, Virginia, on Bullskin, commonly called Rockhall, containing 540 acres, now in the occupation of John Sanders.

The above tract of land lies about 16 miles from Winchester, and about 6 miles from Charlestown, and on the main road leading from Winchester to Baltimore, city of Washington and Alexandria. It is well adapted to plaster and clover, and is in quality little inferior, if at all, to that of any farm in that rich valley. The improvements on it are a large two-story frame dwelling house, barn and other necessary out houses.—The water is limestone and of excellent quality.

Any person wishing to view the premises will be shown them upon application to John A. Washington or Bushrod C. Washington, living near the land.

600 acres of Land for sale.

THIS Tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar, pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equi-distant from Baltimore, Washington and Norfolk.

Any one wishing to purchase may apply to ROGER JONES,
Alexandria.

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wiley's, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition.—For terms, apply to PHILIP C. JONES, esq. in Leesburg, Va. or to R. JONES.

Charles County Court,

March Term, 1818.

ON application to Charles county court by petition in writing of John Smith, of Charles county, for the benefit of the act of assembly for the relief of sundry insolvent debtors, passed at November session 1805, and the several supplements thereto, on the terms mentioned therein, a schedule of his property and a list of his creditors on oath, so far as he can ascertain them, being annexed to his petition, and the court being satisfied by competent testimony that the said Jno. Smith has resided two years immediately preceding the time of his application, in the state of Maryland, and being also satisfied that the said John Smith is in actual confinement for debt, and the said John Smith having entered into bond with sufficient security for his personal appearance in Charles county court, to answer such allegations as his creditors may make against him—It is therefore ordered and adjudged that the said John Smith be discharged from imprisonment; and that by causing a copy of this order to be inserted in some one of the newspapers edited in the District of Columbia, once a week for two months successively before the third Monday of August next, he give notice to his creditors to appear before the said Court, at Charlestown, in said county, on the said third Monday of August next, for the purpose of recommending a trustee for their benefit, and to show cause why the said John Smith should not have the benefit of the several insolvent laws as prayed. Given under my hand this 20th day of June 1818.

Dr. Thomson's System of Chemistry.

IN FOUR VOLUMES OCTAVO.

THE preceding edition of Dr. Thomson's Chemistry, had acquired so much reputation both in England and upon the Continent of Europe, that a new edition, comprising the new facts with which the science had been enriched, and the new views of the subject which extended knowledge had suggested as indispensable, was eagerly looked for by the scientific world. A new edition has accordingly appeared, wherein the former edition of five volumes has been condensed into four.

All the new discoveries, and all the new theories of Chemical Phænomena, have been considered and embraced in the present improved edition: so that it is indispensable to the chemical student, as presenting the only condensed view of the changes and alterations in chemical doctrine, which the discoveries of the last ten years have suggested. No apology therefore can be necessary for reprinting such a book in this country; for the press does not furnish a substitute for it. But, there is so much theoretical suggestion—so much abstruse calculation—so much fact of dubious authority—and so much dubious validity—that notes and illustrations are absolutely necessary, not merely to render the book more useful, but more intelligible.

Under these impressions, I thought fit to write notes in illustration (and sometimes in contradiction) of the work itself, rather than to make any abridgement of it. Those who wish to know the modern views of chemical science, *must* peruse it; and to very many who will be anxious to study it, elucidation will be necessary. I have endeavoured to supply these, to the best of my ability; regardless whether my own opinions are in dissonance or coincidence with those of my author; leaving to the reader to decide between us.

The work will be published, with notes and illustrations, in four volumes 8vo.
THOMAS COOPER, M. D.

ABSCONDED from the subscriber's service, on Saturday night the 15th inst. Negro woman TREACE or TREACY—she is five feet two or three inches high, about 30 years of age, of a very dark complexion, and when particularly examined is very apt to confound herself.—It is deemed unnecessary to mention her clothing, as she has all of them with her, and being extremely artful, she no doubt will change them and endeavor to pass for a free woman. She is well acquainted in Charles county, Prince George's, Alexandria and the City, as about 5 years ago she made her escape, and was 6 or 7 months about the Lower Ferry, leading to Alexandria, and from thence to Washington City, where she acquired an extensive acquaintance among the Negroes belonging to John Brent, esq.; and the greater part of said Negroes belong now to William and Rober Brent, esqrs. and Mr. Dudley Diggs. Negro Treace has a scar on the back part of her neck, occasioned by a seaton put for the benefit of her eyes, which are very weak at this time. I will give 10 dollars if taken in the county and secured in jail, or if out of the county and secured as aforesaid, so that I get her again, 25 dollars, and all reasonable charges paid if brought home. All persons are forewarned harboring or employing said Negro at their peril, as the law will be rigorously put in force against any offender.

BILL IN CHANCERY.
Robert Perry
versus
James B. Dunnington, Robert Dunnington, Francis Taylor and Elizabeth B. his wife, James Bloxham and Catharine his wife, William Simmons and Esther his wife, heirs of William Dunnington.

THE Complainant alleged in his bill that the Respondents have in possession the real estate of their deceased father Wm. Dunnington, whose personal estate was not sufficient for the payment of his debts. Wm. Dunnington's estate is indebted to the complainant in a large sum of money. The object of the bill is to procure a decree for the sale of the land, for the payment of the debts remaining unpaid by the personal estate. Some of the heirs of Wm. Dunnington are non-residents.—It is thereupon, at motion of the Complainant, ordered that he cause a copy of this order to be inserted in the Alexandria Gazette for the space of three months, to the intent that the absent defendants may have notice of this application, and of the subject and object of the bill, and may be warned to appear in this court in person or by a solicitor, to shew cause, if any there be, wherefore a decree should not pass as prayed. PROPOSALS,
By Gideon Fairman, John Binns and Charles S. Parker,
TO PUBLISH
A Splendid Edition of
Washington's Farewell Address,
To the People of the United States.

THE world has seen enough of warriors and of Heroes—enough of Statesmen—of men who have guided Armies in the field, or dictated as Sages in the Cabinet, for the exclusive purpose of Ambition. History from its earliest page to the present day, has offered to our contemplation, only ONE WASHINGTON, but ONE MAN, whose dangers in war, and labors in in peace, were undertaken and supported with a single eye, to the benefit of his country; whose wonderful and honorable success, was the plain result of wisdom in design, and valour in execution; whom danger never appalled, nor defeat depressed; who, persevering in the justice of his cause, wooed Victory till he won her; who covetted no reward but the well earned approbation of those whose interest he livod to promote: who renounced all public honors, when they ceased to be the necessary instruments of good to the people, whose gratitude conferred them: who superior to all Monarchs, was content to be called the American Citizen. His career of glory through life was unstained by crime; and his death was felt as a loss by every individual of that community, whose political existence was the fruit of his exertions.

THE FAREWELL ADDRESS *of general Washington* is the condensedresult of long experienced, matured reflection and strong anxiety for the permanent prosperity of his country. His advice concerning the great importance of maintaining indissolubly the federal Union: the danger of indulging too much in party feelings:—the necessity of supporting public credit at home:—of maintaining public faith in all our transactions with foreign nations: of encouraging foreign intercourse free frm foreign attachments:—are so many lessons of prudence which we should do well to bear in constant remembrance. Why therefore should not his legacy of wisdom and affection, be so published, as to admit of being constantly before our eyes? An ornament to our apartments, while it serves as a memento to guide our public feelings, and to manifest that the author lives in our memories?

To make it such, is the aim of the proposed Edition.

The Publishers are determined that the Address shall be printed on paper of the same quality and size as the splendid edition of the Declaration of Independence now engraving, & shall in all respects be a companion worthy that great State paper.

As errors are known from various causes to find their way into the most important writings, the publishers feel it their duty, not only to satisfy themselves, but to satisfy the public, of the authenticity of the copy from which this splendid Edition of the Farewell Address shall be published.

MR. GEORGE BRIDPORT will complete the Design; of which the following is an outline:—The introductory part of the Address, in highly finished ornamental penmunship, shall form the upper part;—the other parts of the plate, shall be appropriate ornaments;—in the centre below shall be engraved, from an historical design for this publication by Mr. *Sully* the Surrender of the British Army at York-town, October 19, 1781.

The Address itself shall be printed with type of a peculiar and appropriate character, designed for this purpose by Mr. Fairman, and to be cut and cast by our best artists. No more of the type shall be cast than will be necessary to execute this Address; & when it shall be compleated, the type and the matrices in which it was cast shall be utterly destroyed; so that no other work shall ever be executed by the same letter which shall have printed the "FAREWELL ADDRESS" of him who lived and died, *first in War; first in Peace, and first in the hearts of his Countrymen.*

The paper, of the first quality, 36 by 26 inches, will be made by Mr. Amies. The INK shall be carefully prepared, and of the best materials.

The signature of General Washington from which it is proposed to execute a fac simile for this publication, is that which he affixed to the Constitution of the United States, when he signed it as President of the Convention in which it was framed; Thus associating and concentrating some of the greatest events in the life of this great man and in the history of his Country.

The ornamental writing will be designed and executed in the very best manner; the ornamental parts of the design and vignette, will be engraved by G. FAIRMAN: and the Typographical part executed by *John Binns.* They will take especial care of the execution of their several duties in this respect, and they will call to their aid, all that liberality, zeal and industry can command from the Sciences and Arts, so as to make the "*Farewell Address*" no mean specimen of the state of the Fine Arts in the United States.

As much progress has already been made in designing and procuring materials for this splended edition of Gen. Washington's "*Farewell Address,*" it is expected it will be ready for delivery, with the Splended Edition of the Declaration of Independence, in the month of December next. That the public may have a more perfect view of the design and style of execution, than can be given in a proposal, of this Tribute to the memory of him who was "a Conqueror for the Freedom of his Country! A "Legislator for its Security! A Magistrate for its Happiness," it is not intended to solicit any Subscsiptions until the Ornamental parts of the plate shall be executed. It will then be submitted for public inspection and public patronage, at five dollars a Copy, payable on the delivery of the Engraving. Philadelphia, July 31.
